Innovative glass for a better world

Born in **1825** in the heart of the town of Arques, **in the north of France, Arc** is the world leader in tableware. For nearly two centuries, the Group's history has been forged through **countless innovations**, with the same leitmotiv, whatever the period: to offer, over the years, **more beautiful, more practical, more resistant, more versatile**, healthier and always more affordable products and services.

Every day the Arc Group produces more than **4.3 million items**, half of which leave its factory in Arques in the North of France.

All the articles produced by the Arc Group are made of glass.

Infinitely recyclable, insulating, non-flammable and resistant, **glass** is by definition **a sustainable material**.

The Arc Group has long been aware of environmental issues and has been committed for several years to a process that promotes the **circular economy**, by striving, for example, to **natural resources**, or to integrate **sustainability criteria** into the design of its products and offerings.

In many countries, single-use plastic containers will soon be banned (Egalim law in France). To support these changes, the Arc Group's marketing and R&D teams have developed **durable, reusable and returnable glass containers**, specifically designed for restaurants, takeaways and deliveries. In addition to being made of glass, **a healthy material that guarantees organoleptic quality and health safety**.

ARCOROC

arcoroc.com - chefsommelier.com

Arc has also acquired unique expertise over the years in the areas of food service, bars, gastronomy, oenology and Food to go & Delivery. With its two brands, Arcoroc™ and Chef&Sommelier™, Arc perfectly meets the needs of hospitality and restaurant professionals via a very extensive portfolio of products. In this catalogue, discover more than 15 different unit needs (tableware, buffet, dinnerware, champagne or cocktail set, cutlery, etc.) among which you will find the perfect solution for your needs, from the heaviest to the most refined usage, as well as the most innovative.

## Chef&Sommelier

Chef&Sommelier™ carries on the legacy of an art of living rooted in the richness of French gastronomy and oenology. Chef&Sommelier™ designs dinnerware, glassware and adjustable cutlery with sleek and elegant lines. A unique signature for tables that become works of art. Chef&Sommelier™ creations represent a world of innovation, where the most demanding professionals draw on their expertise to arouse the senses of their guests and create an unforgettable experience for taste buds. Never before have passion, elegance, and high expectations been so deeply anchored in a business. The focus is always on pleasure, creativity, discovery, and shared authenticity!

## ARCOROC

Any day, any service, anything can happen. At Arcoroc™, we know all about it: we've been creating effective, durable tableware products since 1958. Because of our continuous search for comprehensive solutions, today we are the preferred partner to the biggest hotels, restaurants and bars in the world. Our expertise is unique. It's down to our devoted, demanding teams, who place material innovation and design at the heart of our development. All with one objective: to measure up to the pressure and pace of your daily challenges, as well as your creativity and commitment to customer satisfaction.

## BARS & PUBS

Traditional pubs, futuristic bars and speakeasies are new places to drink and chat that boast limitless creativity to win over aficionados. Cocktails offer up a show, while beer is no longer just drunk but tasted, like a fine wine, and vintage spirits and aperitifs are experiencing a revival. To keep pace with these new trends, Arcoroc™ and Chef&Sommelier™ have developed a diverse range of products: cocktail and margarita glasses for a '20s atmosphere, a crystal style stemglasses and tumblers to create a vintage feel, and a "recycled" offering for ultra-creative, modern mixes. For happy hours Arcoroc™ also offers ultra-resistant and super functional modern collections for all these intensive moments.

# BISTRONOMY

The "bistronomy" concept is the new, hip restaurants with muted lighting that serve innovative cuisine. Here, style is king and friendliness dominates. For your gourmet concepts, our brands Arcoroc™, and Chef&Sommelier™ help you trigger the discovery spirit in your customers' mind. For all these sharing moments filled with conviviality and friendliness, our collections offer an on-trend products that combine design, bold design and technology. Its unique offer features plates with innovative shapes, wooden trays, to create endless combinations in this always evolving restaurant concept. Wine is also part of the experience, Either in Chef&Sommelier™ portfolio with a wide crystal glass offer or either in Arcoroc™ with a resistant and functional one, you will find the best stemglass match for your venue and wine list.

# BANQUETING

Banquets are important events for your customers and your savoirfaire is on par with their level of savoir-faire. For the biggest events, simultaneity in service is a truly spectacular performance. Arcoroc™ and Chef&Sommelier™ Draw from their expertise in event and reception service to offer collections that combine elegance with a high level of technical performance. Resistant materials such as Opal, Porcelain, tempered glass, and Krysta™ – new crystal glass generation with a high shock resistance - light and stackable items, and expanded ranges help you provide a fast and high-quality service.

## CASUAL

Casual dining is growing and the sector overflowing with innovative, stand-out concepts. These establishments always have a friendly vibe and often produce the hybrid atmosphere of an ultra-connected restaurant that also focuses on history. Arcoroc™'s relevant range of Dinnerware, glassware and cutlery perfectly suited to the needs of these new concepts, offering different materials, shapes, colours and effects. It features practical collections designed specifically for professional uses.

# ECONOMY

The catering market is changing and, with fast food chains offering more high-end options to enter the fast-casual dining sector, and the casual dining sector becoming more popular while maintaining the same quality, economic food options are having to reinvent themselves.

Against a backdrop of more affordable prices and a need to promote their menus, economic food establishments can find an excellent partner in Arcoroc™, thanks to its ultra-resistant collections (Opal and tempered glass) and quality & functional solutions in various materials and colours for very competitive prices.

## SELF SERVICE

Self-Service sector is constantly innovating to keep up with the latest trends. A wider choice of food is offered to seduce the customers and make them want to taste it all! They want to eat well and quickly; they also expect to enjoy healthy food at any time of the day. Self-serve catering brands have to be creative to attract their share of the market. Arcoroc™ offers a complete assortment of on-trend and resistant items for all your food and beverage services. With our modular, ingenious designs, your customers can create attractive trays with appetizing plates.

## FOOD TO GO & DELIVERY

Recent bans on single-use items for pollution issue, but also Healthy concern on plastic containers require new solutions.

And in some countries laws will soon require the usage of durable items.

To ensure this transition Arcoroc™, developed a wide range of sustainable, returnable and reusable glass containers, specifically designed for take-out and delivery. Technical solutions that allow catering professionals to accelerate their transition to sustainability.

# EDUCATION

How have our solutions for schools become so successful?  
Arcoroc™ offers a large range of products that provide concrete solutions for school canteens including, for instance, glasses that are easy for children to hold, plates that save space on trays, and containers of varying sizes to match children's different appetites and thus limit waste.

# HEALTH CARE

Whether in a retirement home or a hospital, whetting residents' appetites while also guaranteeing enjoyment is a daily challenge. It requires developing inventive, quality cookware that is adapted to everyone's needs. Arcoroc™s large range of practical and specialized plates, developed alongside healthcare professionals, will help you rise to the challenge. Our products are the perfect solution for tackling difficulties associated with cook and chill and cook and serve processes, as well as problems of space and ergonomics. Some also offer a touch of sophistication and colour.

## BUSINESS & INDUSTRY

The pandemic has sent shockwaves through the non commercial segment, but especially through the Business & Industry segment (B&I), which is experiencing accelerating changes in the working world. B&I is therefore already rethinking its offer, innovating and reinventing the experience of diners thanks to click and collect, digital technology or by focusing on the functional mix of spaces, longer opening hours, ... B&I must also imagine a more committed canteen, with meals that are better for the health (more organic, more vegetarian dishes) and better for the planet (with seasonal products bought locally). With its collections produced in France; healthy and resistant Opale dinnerware, functional tumblers, but also leak proof and reusable glass containers, Arcoroc has become in the last few years one of the most important tableware partners for the B&I industry.

ASSOCIATION  
DE LA SOMMELLERIE  
INTERNATIONALE

# Chef&Sommelier™

official glasware partner of the  
Association de la Sommelierie Internationale

Chef&Sommelier™ has built its reputation on its expertise in glass and its capacity for innovation.

The brand and the A.S.I have the same objective: to promote the talent of expert professionals to serve passionate and demanding customers.

Creator of experiences and ambassador of the French art of living, Chef&Sommelier™ has been accompanying the A.S.I since 2010 at all regional and world competitions, the World's Best Sommelier Competition.

In 2022, Chef&Sommelier™ will accompany the ASI for 2 regional competitions; in Chile.... in Taiwan....

The greatest sommeliers rely on the technicality and elegance of Chef&Sommelier™ glasses and decanters.

Final of the ASI Best Sommelier Europe and Africa 2021  
Contest with Candidate Nina Jenssen, November 2021  
Chef & Sommelier EXALTATION champagne tasting stemglass

## What is ASI ?

ASI is an international not-for-profit organization, where national sommelier associations of over 60 countries in five continents-representing over 25,000 members-come together to promote sommelierie around the world.

It is also the world's largest organizer of sommelier competitions, running periodical national, international, continental and world contests.

ASI promotes the culture of wine and other beverages and its consumption in moderation; and acts to generate awareness among consumers and restaurateurs alike about the importance of the role of the sommelier.

Final of the ASI World's Best Sommelier Contest  
with the candidate, future winner, Marc Almeri,  
March 2019.

Chimney to reduce the smell and tart taste of alcohol

Very large fragrance chamber allows scents to develop

Gentle angle allowing the oxygenation of young wines and revealing the aromas of mature wines

Elegant thin stem Very light, excellent balance in the hand

Extra wide oxygenation surface birth of aromas. Ideal for all types of wine

Usable capacity readily visible

Perfectly flat base: stable and no water retention after dishwashing

Villeneuve, developed with Chef Daniel Boulud and referenced in his New York restaurant Le Pavillon

“Chef&Sommelier reflects the love for the French gastronomic heritage that I cherish very much;”

said Chef Daniel Boulud, named “best restaurateur” in the world by Les Grandes Tables du Monde.

NOVA AQUITANIA

All the assets of Opal glass and other outstanding specific advantages:

- Light weight helping protect staff from RSI
- Small diameter perfect for customers in the Education sector wishing to fight against food waste and over eating
- Perfectly stackable

- Can be mixed with all items of the Restaurant product line
- Affordable price which, combined with durability, implies cost savings

GASTRO'COOK  
The professional oven glass solution

- Adapted shapes for different usages  
Stylish design to enhance Chef's cuisine  
Perfect balance between design & functionalities
- A lot of benefits to ease every use of the product: from preparing to cooking in the oven and to serving in the dining room
- Gastro'Cook combines the best of the ceramic (aesthetic and opaque) and the glass (resistant and healthy) but is definitely unique being around 30% lighter.

ARCOROC

Chef&Sommelier

Luminarc®

Gastronomy professionals are searching for glasses that satisfy their needs in terms of **perfection and sophistication**.

Their desire: Splendidly elegant table settings with **fine, lightweight, extremely transparent** products.

Their professional needs: **Intensive daily use** requires products that are **highly resistant to shocks and detergents**.

To meet these twin challenges of **aesthetic excellence and resistance**, the Arc Research Centre is introducing a **new generation of lead-free crystal: Krysta™**; The high-performance crystal glass.

**SUPERIOR STRENGTH**

The Arc Research Centre has developed a crystalline material, Krysta™, combining **superior strength with exceptional finesse**.

Finer and stronger: the Krysta™ innovation.

With a thickness of 1.1 mm at the rim, KRYSTA™ is 30% stronger\*

- **Savings across the entire chain: fewer breakages and chipping during transportation, storage, washing and polishing.**

\*than other standard crystal glasses on the market.

**COMPLETE TRANSPARENCY**

Krysta™ is one of the **purest and most transparent crystal glass** on the market.

The perfect mastery of its composition, the quality of the sand used, and fusion at a very high temperature gives Krysta™ perfect transparency.

- **Tables enhanced by the sparkle of Krysta™.**
- **The visual aspects of every wine respected to perfection.**

**LONGLASTING BRILLIANCE**

Krysta boasts extreme, long-lasting brilliance.

After 2,000 professional dishwasher cycles, Krysta™ is **as brilliant and transparent as ever**.

- **Glasses that bring a special brilliance to your tables.**
- **Dinner services with lasting sparkle that you will be using for a long time.**

**PERFECT ACOUSTICS**

Krysta™'s exclusive composition gives it a **clear, pure sound** in keeping with the tone of the finest crystals.

- **The allure of Krysta™: A unique shine coupled with a distinct sound for a refined sensory experience.**

**100% clarity**  
**0% colouration**

**HIGH TRANSPARENCY**

Glass in its purest form Arcoroc has the «**High Transparency - Purity certified glass**» label on some of its products, this certifies that these items are made with only **the highest quality glass**.

Due to its composition and laboratory-tested and confirmed performance, Arcoroc glassware features an exceptional level of purity\*\*.

\*\*Quality certified by the IWA 8/AFNOR CLEAR GLASS STANDARD

For professionals, breakage problems are a regular occurrence. **In order to increase the lifetime of product by 10 to 50 times, in 1958, our research and development center developed and perfected since then, a technical process known as «tempering».** This process provides products with excellent resistance to heat and mechanical shock. Our items are fully tempered.

**Savings in terms of budget and restocking costs:**

a tempered glass can be up to 5 times more resistant than an item that has not undergone any specific treatment process.

**Tempered products resist to temperature variations till 130° C:**

they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

\*except for So Urban - thermal shock resistance 110°.

**Completely safe for table service\*:**

when a shock or series of shocks manage to rupture the exterior shell of the tempered glass, the resulting glass shards are not sharp to the touch\*.

\*According to the thickness. Cannot be applied to tempered Opal.

NORVÈGE  
SPIRALE  
STACKY

The SAN items are very popular with hotels for rooftop, swimming pools, and terraces, and with many discotheques.

They have an excellent **mechanical resistance.**

They show **no deterioration of the material** after more than 2,000 washes in an industrial dishwasher

The Arcoroc™, SAN items are guaranteed **Bisphenol A free.**

# OPAL GLASS

In 1958, the Arc research and development department developed and perfected since then a new material generation for dinnerware: Opal. Food service professionals all over the world have opted for that all-round **professional material** solution that is **economical, ecological and practical**.

Up to **3 times more shock-resistant** than porcelain: the secret of its unbeatable durability.

Opal Glass products are **resistant to variations in temperature of 130°C**: they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

**Fade-resistant surface and pattern**, even after 2,000 industrial dishwashing cycles.

As **efficient in keeping food hot** as other materials such as porcelain. (at the same thickness and weight)

Can be **safely handled after microwave** use.

100% Opal, **0% porosity. 100% protection against bacteria.**

# OVEN GLASS

Thanks to an innovative manufacturing process. Arcoroc™ oven glass **combines the aesthetics** of opaque ceramics with **the resistance of tempered glass** while staying **light weight**. To meet professional requirements and intense daily use, Arcoroc™ oven glass products are **highly resistant to mechanical impact** and **temperature variations**.

Up to **3 times more resistant** than porcelain for a long durability.

Oven glass products are **resistant to variations in temperature of 180°C**.

**250°C**.

**Fade-resistant surface** even after 2000 industrial dishwashing cycles.

Oven glass products can be **safely handled after microwave** use.

**Non porous** material. **No migration risk** particles into the food.

**Hygienic and healthy.**

**30% lighter** than porcelain. **Ergonomy** and **practical**.

The ceramic material used for Chef&Sommelier™ and Arcoroc™ collection is of **remarkable quality** (it contains a high percentage of alumina) , which has no equal but its **resistance**.

- **Superior shock-resistance:**

Arcoroc™ and Chef&Sommelier™ porcelain offers a **superior shock resistance** that is perfectly adapted to **professional intensive usages**.

- **Long-lasting scratch resistance.**

- **Excellent dishwasher resistance:**

Both surface and decoration even after 2,000 industrial washes.

- **Cream white porcelain:**

A seal of quality and purity.

- **Heat retention levels:**

as effective as those offered by other materials currently available on the market.

Arcoroc™ and Chef&Sommelier™ cutlery is **designed for intensive and professional use**.

The **reliability** and **durability** is **underpinned by strict specifications and rigorous checks at each stage of the manufacturing process**.

Most of our collections are done in 18/10 - AISI 304 stainless steel, what is ideal for use in **high-quality cutlery and to guarantee resistance**, the thickness of the cutlery is examined in minute detail.

Some of our Arcoroc™ collections are done in 18/0 - AISI 430 performance polished stainless steel, also **resistant and designed for a long life**.

Each piece of our cutlery has been designed to combine **elegance with perfect ergonomics and balance**.

Our cutlery is **wash resistant and respects dinnerware material** by avoiding **scratches**.

The **bending strength and torsion resistance** has been designed to be above the requirements of the industry.

Regarding our knives some are available in both solid handle and hollow handle formats.

Our solid handle knives have been created to balance weight with design and use the finest quality stainless steel.

Our hollow handled knives use the traditional 3 piece composition, highest grade 18/10 - AISI 304 stainless steel handle (2 piece) and high grade (AISI 420) hardened knife blade (3rd piece), to give the optimum in quality, longevity and design. All of our cutlery collections are dishwasher safe.

Catering professionals are increasingly offering a pricing range that varies according to the weight of the food that their customers take. To ensure that it is as fair as possible, they need products the weight of which does not vary or varies only slightly from one item to another.

This is where Arcoroc™ comes in, **by controlling the weight of its items**, whether the products are made from Zenix™, Opal or glass. Within our Arcoroc™ offer, for certain references that are strategic for the venue, **we guarantee a tolerated weight standard** according to the following rule:  
 - +/- 10 g for items weighing <= 500 g  
 - +/-15 g for items weighing > 500 g

# PREPARATION

## DO'S

✓ Always **store the items** so that they are **ready to be used**

✓ Always **use a plastic scoop** to fill the glasses **with ice cubes**

## DON'TS

✗ **Never use damaged or chipped items** (these pose a risk to the user)

✗ **Never place items in a traditional oven or on an open flame** unless the product clearly indicates its compliance to do so.  
Only the **Arcoroc Gastro Cook collection** is Oven safe

✗ **Never make contact between the glass and beer tap** when pouring

✗ **Never immediately use a hot glass** (straight out of the dishwasher)  
Always allow to cool before use

✗ **Never fill a glass with a hot beverage unless** it specifies that it may be used for that purpose.  
Arcoroc **Fully tempered** items can be used for hot beverages

✗ **Never allow dinnerware, container or fully tempered glassware to be exposed to sudden temperature changes** which exceed 130 °C

✗ **Never use cutlery when cooking** with high temperatures

# SERVICE

## DO'S

---

✓ **Always** discard **damaged** or **chipped** items

✓ **Always** carry stem glasses **by the upper portion of the bowl**, not by the stem or foot

## DON'TS

---

✗ **Never** carry **multiple** **Items** in one hand

✗ **A bottle** should **never** **make contact** with the glass during service

# WASHING

## DO'S

✓ Always wash the items **before** they are used for **the first time**

✓ Always discard chipped, damaged or broken items

✓ Always place individual items **in their respective sections** of the **dishwasher or in adapted racks**

✓ Always use the **cutlery section** of the dishware **to allow water** to run off the items faster and **protect them from scratching**

✓ Always wash the items **as soon as possible** to **avoid stains**

✓ Have the **washing machine checked** routinely and **keep the machine clean** in order to optimise the washing process

✓ Always use a cleaning **detergent that is approved** by the washing machine brand

✓ Always **remove ice from glassware** before cleaning. This allows the items to be nearer room temperature before washing thus avoiding a thermal shock

✓ Always **rinse the glasses** before placing them in the washing machine

✓ Always **hold the stem glass by the stem** and not by the foot when wiping

✓ To **remove any remaining food** on the plates always **use a plastic scraper** or a pre rinse faucet or by **hand with rubber gloves**

45° - 60°

✓ For **decorated items**, use a **short non aggressive washing cycle**

## DON'TS

✗ **Never overload** the dishwasher **racks**

✗ **Do not surpass** the recommended amount of **cleaning product**

✗ **Do not mix glasses, plates, container, plastic lid and cutlery** in the same rack

✗ **Never leave liquid in the bottom** of a glass for prolonged period of time (2 hours maximum).

✗ **Do not strike plates or container or container against the waist bin** when discarding leftovers in order to avoid damage to the items

✗ **Never leave unwashed plates overnight** in order to avoid stains

✗ **Never use metal scrubbers** or other **abrasive** cleaning items in order to preserve the surface of the products

✗ **Never use lemon based detergents** to wash **cutlery**

✗ **Never use detergent specific for silver** cutlery to clean cutlery made from **stainless steel**

✗ **Never mix stainless steel and silver** cutlery

# TRANSPORTATION/ STORING

## DO'S

✓ Always **store and carry the items** in **adapted racks**

✓ **Separately store plates, cutlery, glassware** and **glass container**

✓ **Store cutlery** in a drawer or enclosed space **away from any humidity**

✓ Always **dry cutlery** with a **soft cloth**

✓ Always **allow the items to cool down** to **room temperature** after washing them then **dry them carefully** before **storing or using them again**

✓ Always **use a glass hanger rack**

✓ **Stack the items only when they have been designed to do so.**

**Stackable items** will be flagged with the following picto :

## DON'TS

✗ **Never stack items** that **haven't been designed to do so**

✗ **Never place cutlery** in **glasses**

✗ **Never store plates** on **metal shelves**
