G. Benedikt factory *G.Benedikt fabrik*

At that time it all has started. The corner stone of the porcelain factory has been laid in the town of Karlovy Vary. One of the currently largest porcelain factories in the Czech Republic focused mainly on the production of hotel porcelain.

As the time went by, the porcelain factory found skilful colleagues - allies in Austria and Switzerland. Therefore today, with Lilien Austria and Suisse Langenthal, we create the "G.Benedikt Group". Although from different countries, we all have one thing in common: extremely durable porcelain, which is not necessary to deal with in gloves.

Da fing alles an. In der Karlsbader Dvory wurde der Grundstein für die Porzellanfabrik gelegt. Eine der derzeit größten Porzellanfabriken in der Tschechischen Republik konzentriert sich hauptsächlich auf die Herstellung von Hotelporzellan.

Mit der Zeit fand die Porzellanfabrik kompetente Partner in Österreich und der Schweiz. So sind wir heute mit Lilien Austria und Suisse Langenthal die „G. Benedikt Group“. Obwohl wir aus verschiedenen Ländern stammen, haben wir alle eines gemeinsam: extrem haltbares Porzellan, das man nicht mit Handschuhen anfassen muss.

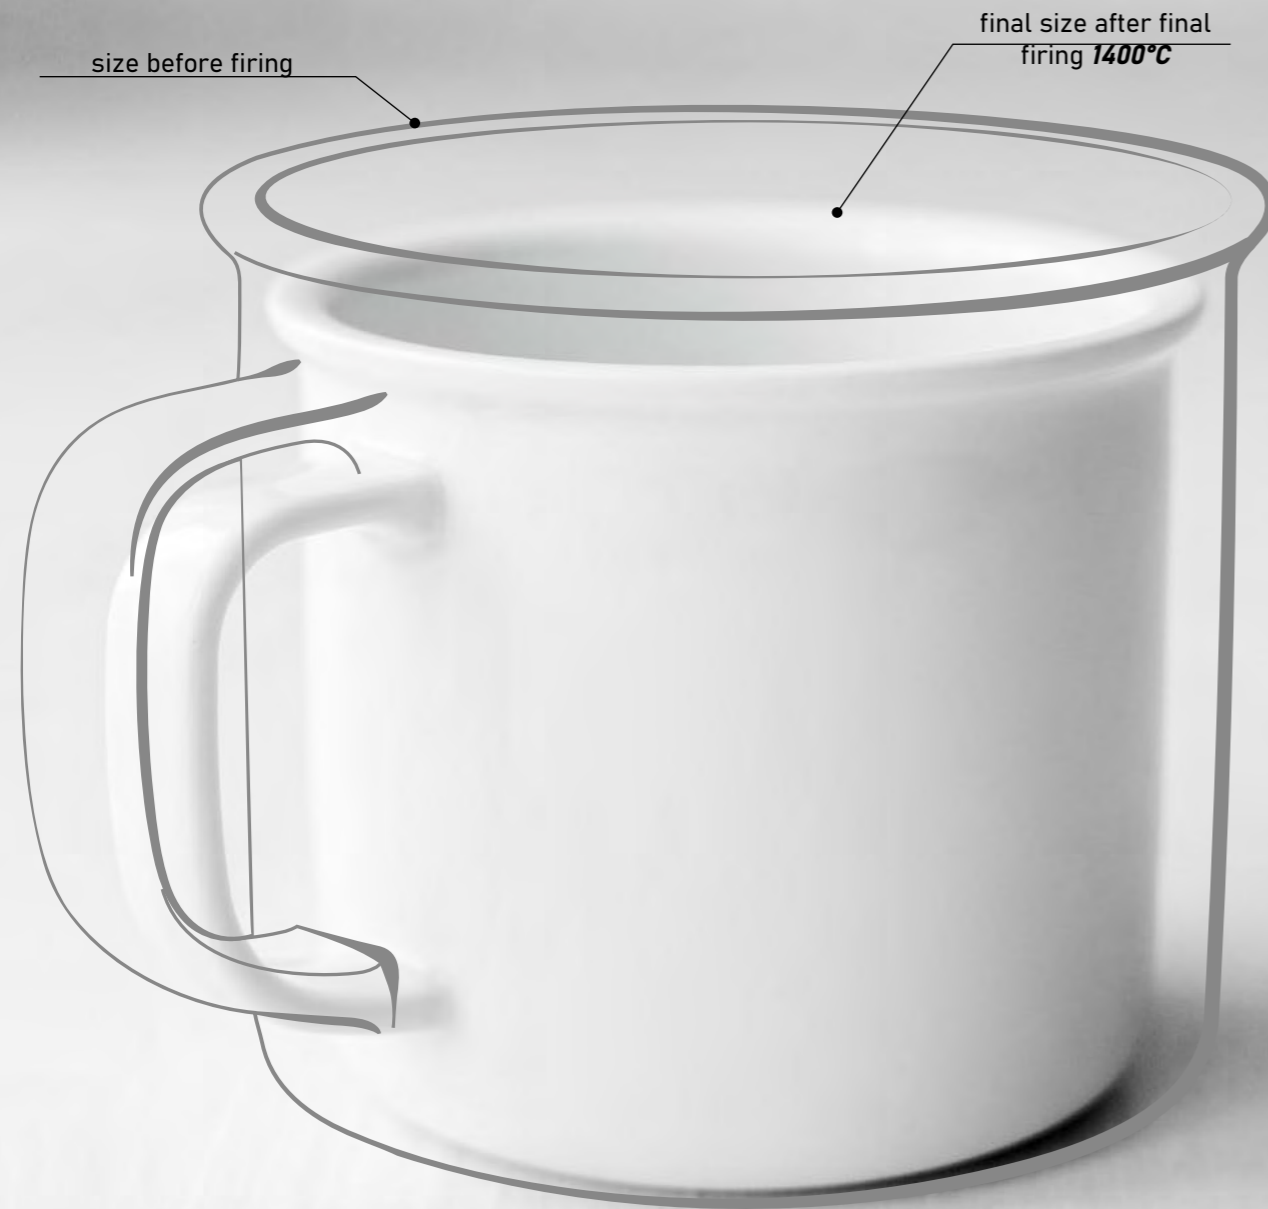

Porcelain *Porzellan*

According to history, „porcelain“ is the „fired shard“ and it's the name of Marco Polo who said he had named this after a similar-looking shell (Porcella).

Porcelain belongs to the group of ceramic products (earthen masses), which contains many different products. Mud bricks or so-called coarse ceramics are the lowest class. Earthenware, fine ceramics, majolica, faience, stoneware are the second level. **The porcelain is the third level.** Through the modification of raw materials and the further development of manufacturing methods we still know other types of porcelain like bone china, vitreous (densely fired ceramics) and many others.

„Porzellan“ bedeutet der Geschichte nach „die hochgebrannte Scherbe“. Der Name soll von Marco Polo stammen, der diese nach einer ähnlich aussehenden Muschel (Porcella) benannt haben soll.

*Porzellan gehört zur Gruppe der keramischen Erzeugnisse (erdene Massen), aus der es viele unterschiedliche Endprodukte gibt. Die unterste bzw. niedrigste Klasse sind Lehmziegel oder sog. Grobkeramik. Die zweite Stufe sind Irdenware, Feinkeramik, Majolika, Fayence, Steingut, Steinzeug, Feinkeramik. **Die dritte Stufe ist Porzellan.** Durch die Abwandlung von Rohstoffen und die Weiterentwicklung von Fertigungsmethoden kennen wir heute noch weitere Arten von Porzellan wie Bone China (Knochenporzellan), Vitreous (dicht gebrannte Keramik) und viele andere.*

Carlsbad's hard porcelain *Das Hartporzellan*

May call itself a shard, which is fired at **1400°C**. In the firing at 950 degrees, the first hardening of the earth mass takes place. The products lose about 3% of their dimensions due to the loss of moisture. After the first firing, the shard is raw (rough) and shows a color shade of blue, green, pink or yellow. Then, it is finished and glazed. The second or the final firing is then carried out at approx. 1400°C. The mass loses about 10% of its moisture again and has the final proportions now.

*Darf sich eine Scherbe nennen, die bei **1400°C** gebrannt wird. Im Glühbrand bei 950 Grad, erfolgt die erste Härtung der erdenen Masse, die Ware verliert etwa 3% Ihrer Dimensionen durch den Verlust von Feuchtigkeit. Nach dem Glüh- oder Bisquitbrand (erster Brand) ist die Scherbe roh (rau) und zeigt eine Farbschattierung von blau, grün, rosa oder gelb. Nun wird sie nachbearbeitet und glasiert. Anschließend wird bei ca. 1400° C der 2. oder Glattbrand durchgeführt. Die Masse verliert nochmals etwa 10% Ihrer Feuchtigkeit und hat nundie endgültigen Proportionen.*

Glaze *Glasurehärte*

According to Mohs' hardness scale the Carlsbad's hard porcelain has hardness 8. Ruby and sapphire have hardness 9, diamond has hardness 10.

Thus, porcelain can damage all materials that have the hardness 1 to 7.

These values make it clear that porcelain is extremely hard. Harder than cutlery even if it was made from stainless steel or chrome steel. Incidentally, this is the reason why the black stripes of the „cutlery abrasion“ come. The porcelain is not damaged by the cutlery, but the softer cutlery is rubbed on the harder glaze and leaves behind the disturbing black stripes and welts.

In daily use, especially in commercial use (hotels, hospitals and canteens), basically the porcelain can be damaged by itself only.

Die deutsche Härteskala nach Mohs ordnet dem Hartporzellan die Härte 8 zu. Härte 9 ist zB Rubin und Saphire, Härte 10 ist Diamant.

Somit kann Porzellan alle Materialien beschädigen, die die Härte 1 bis 7 haben.

Anhand dieser Werte wird deutlich, dass Porzellan extrem hart ist, härter als Besteck, auch wenn es in Edelstahl oder Chromstahl gefertigt wurde.

Dies ist übrigens auch der Grund dafür, woher die schwarzen Streifen des „Besteckabriebs“ kommen: Nicht das Porzellan wird durch das Besteck beschädigt, sondern das weichere Besteck wird auf der härteren Glasur abgerieben und hinterlässt die störenden, schwarzen Streifen und Striemen.

Im täglichen Gebrauch, besonders im gewerblichen Einsatz (bei Hotels, Krankenhäusern und Kantinen) kann Porzellan im Grunde nur durch sich selbst beschädigt werden.

pressing granules

Dekoration department

Decoration *Dekoration*

All decorated products are fired at the temperature of 1250°C. This temperature makes the decoration glazed, therefore, dishwashing resistant.

HAND PAINTING

Our skilled painters can provide any hand painted decorations upon your request.

FULLCOVER SPRAYING

Very suitable for the limited production. We can achieve and provide various color combinations for the reasonable price.

DECALS

This technique allows to combine multicolor motives.

LOGO

Each restaurant or hotel can have its unique logo upon your request. All the above kinds of decorations are to be understood only glazed and suitable for the gastronomy use.

KERAJET

As the time goes by and the new technologies have been developing we are also trying to keep up with the times to bring always something new as for our customers as for the market. We do believe the new digital printing machine is offering a new opportunity for our team of designers and challenge for the production to come up with brand new decorations to surprise the market and to break the limits with the new technique again.

Alle oben genannten Dekorationen sind nur glazed zu verstehen und für den Gastronomiebedarf geeignet.

HANDMALEREI

Unsere erfahrenen Maler fertigen alle von handbemalten Dekorationen auf Anfrage.

VOLLFLÄCHIG SPRITZEN

Sehr geeignet für die limitierte Produktion. Wir können verschiedene Farbkombinationen für den angemessenen Preis erzielen und liefern.

ABZIEHBILD

Diese Technik erlaubt es, mehrfarbige Motive zu kombinieren.

LOGO

Auf Anfrage dekorieren wir für Hotels und Restaurants das Porzellan mit ihrem Logo.

KERAJET

Mit der Zeit und der Entwicklung von neuen Technologien versuchen wir Schritt zu halten, um sowohl für unsere Kunden als auch für den Markt immer etwas Neues zu bieten. Wir glauben, dass die neue Digitaldruckmaschine eine neue Gelegenheit für unser Designerteam und eine Herausforderung für die Produktion darstellt, um mit brandneuen Dekorationen den Markt zu überraschen und die bestehenden Grenzen mit der neuen Technik zu durchbrechen.

Restaurant by Andree - Optimo

Customization *Kundenspezifische*

White porcelain is a classic that you will never spoil anything with. At the same time, it gives you plenty of room to decorate exactly according to your wishes. And it doesn't have to be just the logo of your company even it is one of the most wanted. To decorate porcelain we use decals, spraying and hand painting, which allows us to create any decor on request. With almost unlimited color combinations. All decors are in-glazed, which guarantees their lasting beauty even in everyday use.

We can also assist in the case you wish to develop a brand new product. However, please note that the production of the new porcelain is always a very complicated and costly procedure that makes sense only in certain amount of pieces.

Weißes Porzellan ist ein Klassiker, bei dem Sie nie etwas verkehrt machen können. Aber es gibt Ihnen auch viel Raum, um es genau nach Ihren Wünschen zu verzieren. Und es muss nicht nur das Logo Ihres Unternehmens sein, auch wenn dies eines der beliebtesten Arten ist. Zum Verzieren von Porzellan verwenden wir Drucke, Sprühen und Handbemalung, so, dass wir auf Anfrage jedes Dekor erstellen können, mit nahezu unbegrenzten Farbkombinationen. Alle Dekore sind inglasiert, was ihre dauerhafte Schönheit auch im täglichen Gebrauch garantiert.

Natürlich sind wir für Sie auch da, wenn Sie an einem brandneuen Produkt interessiert sind. Bitte beachten Sie jedoch, dass die Herstellung von neuem Porzellan immer eine sehr komplizierte und kostspielige Angelegenheit ist, die erst ab einer bestimmten Menge sinnvoll ist.

Optimo - Callisto

DecoLab

As the time goes by and the new technologies have been developing we are also trying to keep up with the times to bring always something new as for our customers as for the market. We do believe the new digital printing machine is offering a new opportunity for our team of designers and challenge for the production to come up with brand new decorations to surprise the market and to break the limits with the new technique again.

Mit der Zeit und der Entwicklung von neuen Technologien versuchen wir Schritt zu halten, um sowohl für unsere Kunden als auch für den Markt immer etwas Neues zu bieten. Wir glauben, dass die neue Digitaldruckmaschine eine neue Gelegenheit für unser Designerteam und eine Herausforderung für die Produktion darstellt, um mit brandneuen Dekorationen den Markt zu überraschen und die bestehenden Grenzen mit der neuen Technik zu durchbrechen.

Benefits of porcelain for hotels and gastronomy

Vorteile des Porzellan für Hotellerie und Gastronomie

Durable design means it can stand constant tough wear
Dank stärkerer Konstruktion verträgt es härtere Handhabung

The décor is in-glazed decoration and therefore long-lasting
Schmelzbrand-Dekoration garantiert eine dauerhafte Schönheit des Dekors

It is suitable for microwaves oven use
Verwendung der Produkte für die Speisezubereitung im Mikrowellenherd

It complies to strict sanitary norms
Entspricht strengen hygienischen Normen

The shape enables economical storage and easy and safe transporting
Die spezielle Formgestaltung ermöglicht eine sparsame Aufbewahrung der Produkte, einen sicheren Transport sowie einfache handhabung

It is also suitable for dishwashers
Spülmaschinenfest

Any chosen set can be continually added and supplemented
Möglichkeit der ständigen Ergänzung und Erweiterung in gewähltem Design

Resistant against thermal shocks
Stabilität des Materials bei Hitze und Kälte

To the crackling wood in the stove, fragrant sirloin and grandma's loving look. Benedikt is a classic that has accompanied many of us throughout our childhood. And yet (or precisely because of this) it is still very popular today. Even after years, he loses none of his unique charm, grace and lightness.

G R A N I T

Thanks to a completely new, patented production technology, one of the most original porcelain sets in the world has been created - with its unique appearance of indistinguishable from true granite. Available in unglazed raw version as well as with the glossy glaze.

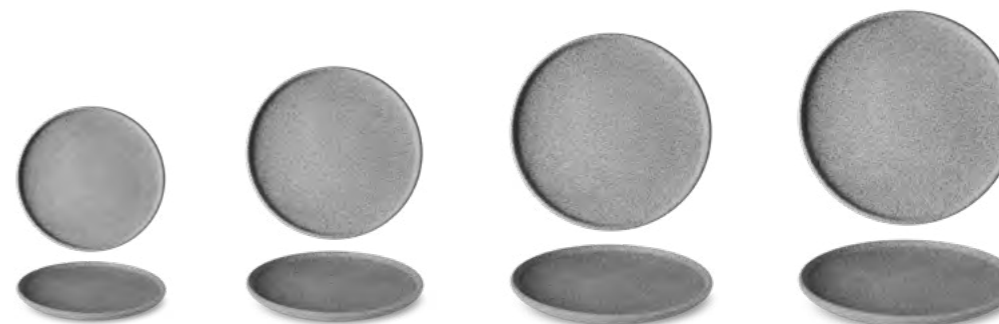

The porcelain collection Granit is indistinguishable from the real granite because of its unique look. It's produced by the new patented technology in the porcelain factory of G. Benedikt in Karlovy Vary. The products are available in rough matt or shiny glazed execution.

„We are very satisfied and happy by using this collection. It gives another additional value to our food“
says the chef Radek Šubrt.
